Please read the information below to assist in your planning:

- Please label your student's supplies.
- For safety purposes, soft-soled shoes are suggested for physical education class.
- Students will be transporting materials, books, folders, etc. between home and school. It would be a good idea for students to have something (i.e. backpack) to assist them in carrying these items each day.

In accordance with the Nebraska Constitution and state and federal law, Bellevue Public Schools provides free public education to all students.

The District will provide all supplies needed in the classrooms for all students. Items listed above are suggested to parents/guardians and should be labeled with the student's name.
